

Connecting your **Android** device to Wi-Fi

1

Welcome to Wrexham University, first thing you will need to do is to connect to our GU Guest Wi-Fi,

Please open your device settings by tapping on the settings icon.

Navigate to the connections/Wi-Fi section.

Tap on the network “GU Guest” to temporarily connect to Wi-Fi.

Once connected, it will either prompt or open a new sign-in page.

Click on “Register” and enter your mobile number or e-mail address, you will then be sent a notification with a code to verify. Once the code has been inputted you will be connected.

2

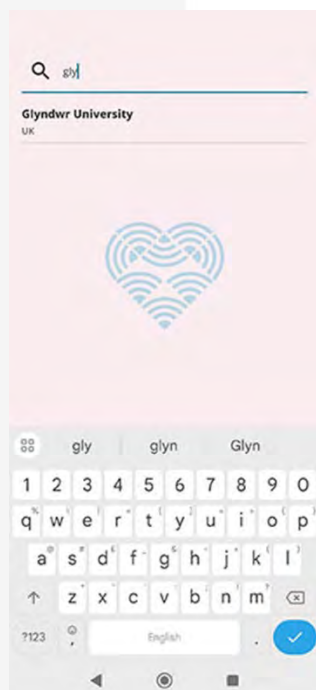

You will need to go to your “Google Play Store”, Search, download and install an app called “Geteduroam”, it looks like this:

3

Once you have the Eduroam app installed, open it and click on the search bar at the top of the screen and type in 'Glyndwr', and the list should filter so you can click on 'Glyndwr University'.

Read the terms of use and click 'Agree'.

4

Enter your student email address in the username field (e.g. S24001234@mail.glyndwr.ac.uk), and your password. Then click 'Log in'.

You will be prompted to save the network connection to your phone, click 'Save'.

Note: Make sure you forget GU Guest after connecting to Eduroam.
